

DECLARE WAR TO THE KNIFE

No Compromise and No Quarter in Impending Steel Strike.

BOTH SIDES FIRM

The Order for 150,000 Men To Quit Work is Expected Tonight.

FIGHT FOR UNIONISM

Pittsburg, August 5.—It is known that a number of preliminaries are to be arranged before a general order for a strike is issued. The Amalgamated wants to make as good a showing as possible at its inception and some surprises for both sides are looked for.

The official strike order affecting 150,000 steel men will no doubt be issued tomorrow morning.

Means a Fight to Death.
Pittsburg August 5.—Every union steel mill in the possession of the United States Steel corporation will be closed by strike before the end of this week. One big order will call from their work all of the union men controlled by the Amalgamated Association of Iron and Steel Workers. All will go out on the same day and then the number of employees of the great corporation who are idle will be close to 150,000.

President Shaffer was given the authority to issue this order by the executive committee of the Amalgamated association, at a meeting in New York Saturday evening after the conferences of the day had been finished. He did not take the momentous step today and refused to say when he would do so. He may, however, act tomorrow, and his advisers believe that his order will not be deferred more than two or three days at the most.

Bitter Fight Promised.
The strike will then begin to take on its bitter phases. The strikers will be watching their nonunion fellow workmen attempting to open the mills that they have closed. They would find aid that comes from the benefit funds paid by other union men much reduced, because the men who have been contributing will now themselves be on a strike and in consequence in need of money instead of giving it.

They will be stirred to harsh measures further by the final knowledge that the fight is to a finish, and that the very life of their organization is at stake. If they lose, they will in the future have to face the greatest industrial combination, single handed instead of in solid combination.

When the general order is issued Mr. Shaffer predicts that every steel mill of the company will be closed. It will be asserted, produce great surprises, and mills that have always been thought to be nonunion and that he companies expect to keep running, he says, will be shut.

Aim at Carnegie Mills.
When the strike was declared three weeks ago on the Tin plate, Sheet steel and Steel Hoop companies the same kind of a surprise was predicted by the labor leaders, and the result bore out their prophecy. Three big mills, the Lindsay and McCutcheon, Painters and Clarke, as well as many smaller ones which the companies had confidently expected to keep running, were closed.

Now it is thought that the strike may even be pushed into the nonunion territory of the Carnegie company. Mills of the American Steel and Wire company and of the Federal Steel company, which are nominally nonunion are thought to be strongly organized and ready for the strike.

Lexington, Ky. Tied Up.
Lexington, Ky., August 5.—The street car system is tied up by a strike of men this morning who demand higher wages, shorter hours and a recognition of the union. The reserve of police was called out.

LYNCHERS SLAY A MADMAN.

Idaho Man Runs Amuck, Kills One and Is Shot Down.

Moscow, Idaho, Aug. 5.—Dr. W. W. Watkins was shot and instantly killed while riding in his buggy in the streets of Moscow. George Creighton, a prominent merchant, was shot through the arm and Deputy Sheriff Cool was shot in the shoulder and thigh by William Steffen, a resident of Moscow. Steffen was afterward killed. Steffen was on horseback when he shot Watkins and Creighton. He was pursued by the deputy sheriff and a posse. As he neared his house about two miles southeast of town, his horse was shot from under him. Steffen took refuge in his house, which was surrounded immediately. Here, armed with a rifle, he held the besiegers at bay. Steffen would occasionally appear at the window, fire a shot and then disappear. Finally a volley from rifles ended the tragedy. A bullet pierced Steffen's forehead.

PREDICTS BOERS WILL WIN LIBERTY

Michael Davitt, the Irish Agitator, Arrives in New York and Talks of the African War.

New York, August 5.—"The Boer war will last at least another year, and if in the meantime England has trouble on her hands in India or elsewhere the Boers may win their now fight for independence."

"If the Boers had had 10,000 more men and fifty more guns they would have driven the English into the ocean. There may be trouble brewing somewhere else."

There were some of the remarks made by Michael Davitt, the one-armed Irish agitator, who a year ago resigned his seat in the British parliament as a protest against the invasion of the South African republics and who arrived here yesterday on the American Line steamship St. Paul from Southampton.

Author Killed by Train.

Lexington, Ky., Aug. 5.—George W. Ranick, a Kentucky author and historian, while walking along the Louisville & Nashville tracks west of this city, was struck by a passenger train and instantly killed. The body was thrown against a track at one side of the right of way, and the arms, legs and head were crushed. Ranick was a prominent capitalist as well as literary man. An umbrella held before his face prevented him from seeing the train.

Legal Hanging in Texas.

San Antonio, Texas, Aug. 5.—Juan Rocha was hanged in the county jail yesterday for the murder of John Grimsinger in this city about a year ago. Rocha was an aged Mexican servant of the Grimsinger family. He was deeply devoted to Mrs. Grimsinger and would do anything she desired. She lived unhappily with her husband and induced the old Mexican to kill him while he slept. Mrs. Grimsinger is serving a life sentence for the crime.

Smallpox in Indian Tribe.

La Crosse, Wis., Aug. 3.—Private advice and messages to Dr. F. C. Sulter, member of the state board of health, state that unless something is done to stamp out the smallpox, which has again attacked the tribe of Winnebago Indians on the reservation near Black River Falls, and scattered on private farms between there and La Crosse, half of the once great tribe will be wiped out in a short time.

The Menace Breaks Record.

San Francisco, Cal., July 30.—The transport Meade has arrived from Manila in the record-breaking time of twenty-one days. The Meade brought 135 men of the Eighth Field Battery, twenty-one hospital corps, casuals, thirty-five insane, 369 convalescent soldiers, one time-expired prisoner, 202 discharged soldiers from Manila, and 103 bodies, including that of Helen D. Cochran, a contract nurse, who died in Manila of acute nephritis. It is the first body of a woman to be brought from the Philippines.

FARMERS FORM A MILK COMBINE; RAISE PRICE TO THE DEALERS

Milwaukee Threatened with a Shortage in the Milk Supply—Rock County Milk Dealers on the St. Paul Road, Are in the Deal.

Milwaukee, Aug. 5.—Milwaukee is threatened with a shortage in the milk supply. The farmers along the lines of railroads over which the milk trains are run into the city have formed a combination to raise the price of milk to the dealers as the shortage in the supply becomes more and more apparent, as it is likely to when the open season draws to a close.

It is estimated that there is a shortage of at least one-third in the supply, as compared with that of this time last year. This is due to the drought and the extreme warm weather, that has dried up all the pasturage and made it necessary for the producers to feed their stock with hay.

"We had noticed a few weeks ago that the farmers were going to advance the price of milk to \$1 per can," said P. J. Grogan, an extensive dealer and "we advanced our price to six cents a quart August 1, in order to meet the new condition. I do not anticipate any further advance but there is no telling what the future will develop. We expect to get a second growth of grass after the hay crop is harvested early in July, but this year everything has been burned up by the hot and dry weather that we have been having."

"The farmers have organized to put up the price by sending their representatives all along the line from Brookfield as far as Milton Junction, and obtaining signatures to an agreement by which they are to demand \$1 per can."

"They tried the same thing last year but it did not amount to much. This time, however, they have gone about it right, and we have raised our prices to meet theirs. I should say that there is a shortage of about one-third as compared with the supply of last year."

WAS GIVEN THREE DISTINCT SHOCKS

Warden of Sing Sing Prison Says It is More Difficult to Electrocute a Negro Than a White.

Ossining, N. Y., Aug. 5.—Benjamin Fugh, a New York negro murderer, was electrocuted in Sing Sing this morning. He was given three distinct shocks. After the execution the warden and the physician declared it was more difficult to electrocute a negro than a white man. Fugh shot a waiter in a quarrel over a ten cent meal for which he refused to pay.

KILLED IN RAILWAY CRASH.

Two Passenger Trains Collide Near Lockport, N. Y.

Lockport, N. Y., Aug. 5.—A Pan-American special heavily loaded and a regular train collided a few miles east of this city about 1 o'clock on the New York Central. Thomas Hyland, an engineer, and George Webb, trainman, were killed and a fireman was severely injured. The regular train was late at Medina and received orders to run to Middleport and await the Pan-American special. When the train reached Middleport they met the Buffalo theatrical train, which they thought was the special they were to pass. In the meantime the Pan-American special had received orders to proceed to Middleport. The trains met a few miles east of this city. The passengers of both trains were thrown into a panic by the shock, but none was seriously injured.

Fatal Rehearsal at Omaha.

Omaha, Aug. 5.—Footlight stars rehearsing the "Arizona Female Bandit" in one of the local theaters yesterday afternoon turned lurid melodrama into terrible tragedy. Real kisses in place of make-believe stage caresses caused the lightning change. A revolver, loaded with hard, honest bullets, in the hands of the stage hero incensed at the action another put into his lines, closed the drama amid all the realism of Arizona or the Bad Lands. The dead are Mrs. Millie Lighthawk, playwright and leading lady; shot in the breast and died at Clarkson hospital in a few hours. Thad Brookie, leading man in the play and real murderer; shot himself in the forehead and died instantly.

Insane Deed of Jealousy.

Charleston, S. C., Aug. 5.—Private Louis Haggerty, Tenth United States artillery, killed his wife and then blew out his own brains in his quarters at the government barracks on Sullivan's island this morning. Jealousy was the cause of the tragedy. Haggerty enlisted from West Virginia.

Mr. Roosevelt Attor Coyotes.

Colorado Springs, Colo., Aug. 5.—Vice-President Roosevelt started on a two or three days' coyote hunt early today. He is accompanied by Philip B. Stewart and Dr. Gerald W. Webb, who were his companions in the lion hunt in western Colorado last fall.

Men Who Have Many Patents.

Thirty-eight inventors have taken out a hundred or more each of United States patents since the beginning of the year 1872. Mr. Edison leads all, with 742 patents; Professor Elihu Thomson is credited with 444 and Mr. Westinghouse and Sir Hiram S. Maxim both occupy high places on this roll of honor.

Teacher for Half a Century.

James S. Barrell, one of the oldest instructors in the Cambridge, Mass., schools, has sent in his resignation as master of the Harvard grammar school. Mr. Barrell will soon complete a term of fifty consecutive years as a teacher, more than half of which has been spent in the schools of Cambridge. He is nearly 75 years old.

Painted Pantry Shelves.

A couple of coats of white enamel paint on the shelves of the pantry does away with the necessity for shelf paper and the result is much more satisfactory.

STEAMER STRIKES ON ROCKS.

Norwegian Vessel Is in Trouble Off Newfoundland—Crew Safe.

St. John's, N. F., Aug. 5.—The Norwegian steamer Vera, from London to Quebec, having water ballast on board, struck on the rocks near Renew's last night, about fifty yards south of the spot where the ill-fated steamer Delmar went ashore and within sight of the wreck of the steamer Luzitania. The Vera is in an upright position and stands well above the water. All her fires are out. Her captain and crew got ashore at midnight and camped on the bank. They have provisions with them. Some of the crew boarded the Vera again this morning. The chances of refloating her are good.

A. C. Angrove, a former Janesville merchant spent Sunday in this city.

DECLARES THE LAW UNCONSTITUTIONAL

The Loan of \$21,500 Made by the State to New Richmond, Can-not Be Cancelled.

Madison, Wis., August 5.—[Special] In an opinion given to State Treasurer Davidson and the Trust Fund commission today Attorney General Hicks says that the law passed by the last legislature appropriating \$21,500 to cancel the loan made from the state funds to the city of New Richmond for relief after the cyclone of 1899 is invalid violating the provision of the constitution that the credit of the state shall never be given or loaned in aid of an individual, association or corporation. He here commends that the city authorities of New Richmond be at once advised that the provisions of the law will not be carried out in order that they may test the matter in the courts if they desire.

COOPER ASKED FOR A LIBRARY

Racine Finds That Carnegie Had Made Congressman a Promise.

Racine, Wis., Aug. 5.—It was learned today that Congressman H. A. Cooper, previous to his marriage, was in communication with Andrew Carnegie, the retired iron king, with reference to a gift of \$50,000 for a Racine public library. The information came from James Bertram, secretary of Mr. Carnegie, to the Racine County Caledonian society. This organization is composed of the leading Scotchmen of Racine, and they had written Mr. Carnegie urging that he give money for the library when the letter came informing the officers that the matter was being considered between Mr. Carnegie and Mr. Cooper and that Racine could be taken care of.

Former Minister to China.

Colonel Charles Denby, former minister to China, is said to have a knowledge of the Chinese language and literature equalled by but few persons in this country. He speaks the higher sort of Chinese dialects almost as a native and reads the language quite as well as he does English.

Great and Little Sorrows.

Griefs are like the beings that endure them—the little ones are the most clamorous and noisy; those of older growth and greater magnitude are generally tranquil and sometimes silent. Our minds are like ill-hung vehicles; when they have little to carry they make a prodigious clatter, but when heavily laden they neither creak nor rumble.

Books Shot Out World.

I no sooner come into the library but I bolt the door to me, excluding Lust, Ambition, Avarice and all such vices, whose nurse is Idleness, the mother of Ignorance and Melancholy. In the very lap of eternity, among so many divine souls, I take my seat with so lofty a spirit and sweet content that I pity all that know not this happiness.—Helmshus.

STIRRING LIFE IN MUSHROOM TOWN; UNIQUE SCENES AT LAWTON, O. T.

Water and Ice Famine—Well Owners Are Making Fortunes—Ice Brings 3 1-2 Cents Per Pound.

Lawton, O. T., August 5.—Prospective residents of Lawton, the boomers' town built in a day, thronged in from all points of the compass today and its tented streets presented a scene that has seldom been equalled in the history of homesteading in the west. The population about the proposed town now exceeds 10,000. Ice sells for 3 1-2 cents a pound and the dealers who handle it do not have to push sales. Ice must be hauled a distance of thirty miles, and the competition between not fewer than 100 lemonade and soda pop stands makes a steady demand.

Water 50 Cents a Barrel

Water sells by the barrel for 50 cents. Not a drop has yet been found on the town site. One well six feet in diameter was sunk by the government at the land office to a depth of seventy-five feet. The appropriation ran out and it was abandoned, with the bottom as dry as the surface of the lot in which it was sunk. A second effort was made and a well bored to one hundred feet without result.

While the government was scor-

EMPRESS HAS PASSED AWAY

The Mother of Kaiser Wilhelm and Sister of Edward III., Dead.

RUSH TO CRONBERG

Royal Relatives Were Gathered at Her Bedside When Death Came.

EDWARD DID NOT GO

Cronburg, August 5.—The Dowager Empress died at 6:15 o'clock this evening. The dowager was the eldest daughter and third child of Queen Victoria. She was born in 1844 and married the then crown prince, Frederick of Germany, when 17, since his death in 1888 she has appeared in public only a few times.

Hamburg, Aug. 5.—Kaiser Wilhelm arrived here this afternoon and was hurriedly driven to Cronburg, where the Dowager Empress Frederick is dying. Crown Prince William who spent the night at Hamburg, also hurried to the bedside of the Empress. He found her unconscious.

Gathering of Royalties.

Hamburg, August 5.—The empress, Crown Prince Frederick William and Prince Eitel Frederick and Prince August William arrived at Cronburg, where the Dowager Empress Frederick is lying dangerously ill.

Other royal personages who have arrived are Prince Adolf of Schaumburg-Lippe, Prince and Princess Friedrich Carl of Hesse, and the crown prince and princess of Greece. Emperor William has not yet arrived at Cronburg. He is expected there late this afternoon.

EMPRESS FREDERICK.

Professor Renvers, the specialist, wired his majesty to come in all haste. The following bulletin concerning the condition of the illustrious patient was issued this afternoon:

"The external disease from which her majesty is suffering, and which for years has been slowly increasing, has in the course of the last few weeks extended to the internal organs. Her majesty's strength is diminishing rapidly, owing to inability to take sufficient nourishment. She is conscious and at present without pain."

King Edward Will Not Go.

London, Aug. 5.—An order for a special train to bring the king from Cowes to London was cancelled. It is reported the king was advised it would be useless for him to try to reach the bedside of his sister, the Dowager Empress Frederick, before she dies.

"ALL MEN ARE NOT CREATED EQUAL, AND 'NIGGERS' ARE NOT FIT TO VOTE

Radical Sentiments by U. S. Senator Tillman During a Talk on the Race Question at Marinette

Marinette, Wis., August 5.—United States Senator Benjamin F. Tillman of South Carolina addressed a large audience on the race question from a southern standpoint. One of the features of his remarks was a plea in justification of lynching.

"In Wisconsin you have 5,000 black men," said he. "Why don't you try the process, and exterminate them by intermarrying? The idea is repugnant to you. In South Carolina we have 750,000 blacks and 550,000 whites. The carpet baggers, the 'nigger' and the Southern scoundrels ruled us after the war until they had stolen everything that there was in the state; then we went with our shotguns to the polls and took it away from them. Are men are not created equal and the 'niggers' are not fit to vote. Come what may the white people of the South will govern their own country."

He condemned Booker Washington's scheme of educating the negro along industrial lines as an at-

tempt to place him on an equality with the white artisan, something that would intensify race hatred in the south. He said that among the 4,000,000 slaves during the rebellion there were more Christians among them than there are today among the 9,000,000 blacks in the South.

"I do not want to uphold slavery," he continued. "I thank God that there are no slaves today under the stars and stripes."

Tillman made an argument in justification of lynching, saying that southern women could not be brought into court to testify to their shame and degradation before a jury for the purpose of convicting a beast. His reference to the sanctity of the southern household and the southern women, and his remarks on lynching were heartily applauded. He closed with an impassioned statement to the effect that the white people of the south would remain on top in spite of the devil and if necessary he and his brethren were ready to take down their shotguns again.

THRILLING EXPERIENCE DURING THE BLOODY SIEGE OF PEKIN, CHINA

Mrs. Goodrich, a Returned Missionary Speaks of Her Personal Knowledge, to a Magnificent Audience at Congregational Church Sunday Night.

Only two of the five evangelical churches were opened for morning services yesterday, the Presbyterian, which is the only one in which services are to be held every Sunday morning during the pastor's vacation and the Congregational, whose pastor does not begin the enjoyment of the consequence was that the morning congregations at these two open churches was visibly increased by those who as a rule attend other churches.

At the Congregational church where Mrs. Goodrich, a returned missionary from China spoke on her personal experiences during the siege of Peking, there was a magnificent audience which filled every seat on the main floor of the large auditorium and necessitated the use of the gallery.

The service was conducted by the pastor of the church, the Rev. Robert C. Denison, and the greater part of it was devoted to Mrs. Goodrich whose address was one of unusual interest. She is a very pleasant speaker, talking in a natural conversational manner which gives the charm of her personality to what she has to say and convinces the most careless listener of the sincerity and earnest heart interest lying behind the words. The only adverse criticism to be made was that she apparently misjudged the size of the auditorium and those in the rear of the room found it difficult to hear her.

Mrs. Goodrich began her address with a tribute to the young emperor of China who until the Japanese war thought himself the greatest ruler and his country the greatest empire in the world. After that war he began to study the reasons for the Japanese victory and he learned that in proportion as Christianity visited a country, that country became great. He determined therefore to encourage Christianity in China and as a result there was not one of his many famous edicts but that tended toward the uplifting of his people.

But these edicts meant a reform too rapid for so old a country established in the customs of the ages and his own people and the mandarins were opposed to him so he placed in power Chinese who were in sympathy with the spirit of reform. But the people were not ready for it and did not want it. The emperor was seized by the dowager empress and placed in confinement. During all of this time not one single hand in Christendom has been stretched out to help this young man who stands alone, a prisoner in his own country, yet true to his best nature. It is not known whether he is a Christian or not but he is their friend.

Soon after seizing the royal power the empress dowager determined to drive out all foreigners from the country and gave her ministers the power. The missionaries smiled but did not dream of what would be done. Little by little the seeds of the boxer movement were sown.

The people were told that all foreigners were government spies and it was small wonder that they became suspicious when every Chinese port of value was controlled by some foreign country. The railroad between Peking and Tien Tsin was built with great care, the railroad company avoiding every large village between the two so as not to arouse the suspicion of the people.

But gradually the business of the villages decreased until the stores were forced to close. This and the general failure of crops which threw the people into idleness made them ready to believe the insinuations against the foreigners. Finally the trouble became so serious that the missionaries were forced to leave their homes and their work and take refuge in the Methodist region of the city of Peking.

They fortified the place against the Chinese mobs with barbed wires and trenches. It was impossible to do anything against the soldiers. The mobs burned buildings all around but the mission and the legation buildings escaped. The days were spent in getting accustomed to the thought of massacre for themselves and children.

The native Christians who had thought that they would be safe outside, began to hurry in for refuge and days of work followed in caring for them. They proved the salvation of the missionaries, however, for much of the hard and dangerous work of fortification and of communicating with the outer world was done by them. As matters became more serious the missionaries moved to the legation buildings, the women and children being put in the English legation building which was the farthest from the wall.

The work of organizing and fortifying was turned over to the missionaries. Several days and nights were spent in fighting fire, women and

children helping, and all kinds of dishes being used to carry water in. Then when destruction seemed inevitable the wind changed.

The days that followed were days of horror. 2,900 solid shot and shells fell within the legation. The French legation was blown up by underground mines. More than once a little band of twenty-six men held hundreds of soldiers at bay.

One of the wonderful providences was the fact that in the enclosure were five wells of good water. Food supplies were found in the deserted stores and homes near the legation and for fifty-five days the besieged lived mainly on coarse bread or porridge.

In that time they ate eighty-six horses and mules and found the meat tough and strong, but good. The people slept on the floor and Mrs. Goodrich, her three children and their pet dog, made their home during those terrible two months on a mattress.

Finally when the rain of shot and shell was hottest and the anxiety seemed the most intense, came the welcome, "boom, boom," which announced the approach of the troops. Though the besieged ones knew that they could have been rescued long before had not the jealousy between the nations as to which should go first caused delay, they had a hearty welcome for the troops.

Through all of the siege the hand of a protecting God was evident. A few days before the Japanese had been stationed at the legation building and the providing of water, food and coal supplies and the changing of the wind at the time of the fire were but a few of the evidences.

The thought with which Mrs. Goodrich closed was the question: "Is all this martyrdom to be lost?"

Those people who think that the Chinese are Christians for self-gain should have seen how nobly they stood the test of that siege. Mrs. Goodrich related many instances of the loyalty and courage of the Chinese natives and believes that China is ready for the work of the missionaries as the country has never been before.

The Union Services

The union evening service was held at the First M. E. church last evening and was conducted by Rev. Robert C. Denison, assisted by Rev. Walter A. Hall, who was called over from Delavan lake to attend the funeral of Mrs. Frank Hogboom yesterday noon and remained in the city for the evening church service. The organist for the evening was Mrs. Bagley and Mrs. E. E. VanPool led the singing. The church was filled, the large audience occupying every seat in the body of the church and in the gallery.

In beginning his sermon, which centered around Christ's calling of the disciples, Rev. Denison said that he had a very simple purpose in his message. He wished to say something concerning the method and meaning of the beginning of Christian life. Many men, intelligent on other subjects are not intelligent on Christianity. Many men are not Christians because they do not understand what modern Christianity is. They do not know that the faith of today is higher than that of the Puritans. They judge Christianity by what it was a century ago and know that Christians of today do not believe many things which their fathers believed. Some men say they cannot be a Christian because there are things in the Bible which they cannot believe. The modern controversy over the book of Jonah is pathetic because in all the essentials of a Christian life it makes no difference what a man believes about Jonah. Others say that they cannot be Christians because they profess to be better than other men. In reality true Christians profess less.

Change in Union Services.

There have also been some changes in the arrangements for the union evening services for the balance of the month. Next Sunday evening the service will be at the Congregational church, Rev. E. H. Pence D. D. of Detroit, formerly of this city, being the preacher. The week after the meeting will be held at the Baptist church, the preacher to be decided upon later, and the closing union meeting will be held at the Court Street M. E. church with sermon by Rev. J. T. Henderson.

The publication of church calendars has been quite generally abandoned for this month. The usual prayer meetings will be held on Thursday evening at the various churches.

There was baptism at the Mary Kimball mission at the close of last evening's service, the sacred rite being administered to one gentleman.

HAMILTON VOSE IS AGAIN WINNER

Hamilton Vose, the crack Milwaukee golfer added another cup to his collection of trophies Saturday when he defeated Joseph S. De Moss of Green Lake for the Milwaukee cup. In the first eighteen Vose had DeMoss six down and it looked like a cinch for him. In the last eighteen DeMoss rallied and cut down Vose's lead so that at the finish the game stood 3 up and one to play.

The finish was the same as at the Wisconsin State Tournament held in this city. Voss and DeMoss being left in for the finals. Vose's victory really gives more satisfaction to the members of outside clubs than it does to the members of his own club. They are quite jealous of his popularity and would have much rather seen Allis or Boyd remain in for the finals.

Vose is a general favorite with the members of all of the clubs he has

visited and his victory gives general satisfaction to the golfers throughout the state.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.
P. J. CHENEY & CO., Props, Toledo, O.
We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligation made by him.
W. & T. TRAVAS, Wholesale Druggists, Toledo, Ohio.

Hall's Catarrh Cure is taken internally, acts directly upon the blood and mucous surfaces of the system. Price 50c per bottle. Sold by all druggists. Testimonials free.
Hall's Family Pills are the best.

Gold Medal highest award to Harper whiskey at Paris, 1900; Chicago, 1893; New Orleans, 1885. Good as gold anywhere, anytime. We'd like your expert opinion. Sold by Kehoe & Cullen, Janesville, Wis.

HOW WOMEN "STAND BY"

Refutation of an Ancient Slander Upon the Fair Sex.

Once in a while some Rip Van Winkle awakens from his nap, and gives utterance to the venerable aphorism that women do not stand by each other. There are actually a few specimens who believe this, but they are antediluvians.

There is nothing more certain, and few things more obvious, than that women stand by each other as loyally as ever men have done; but standing with women means more. It means standing by her babies, and providing a day nursery or crèche for them while she stands by somebody's washtub. It means giving to their baby fingers the beautiful employment of the kindergarten.

It means teaching her sons and daughters to do things as well as to know them, and it means establishing truancy schools, better called parental schools, when her authority has been worn threadbare. It means giving them a decent city to grow up in, and furnishing public libraries, and public baths, and gymnasiums, and "piecing out"—as one poor woman expressed it—the faulty homes that leave so much to be desired. It means girls' clubs and boys' clubs; it means women's and children's hospitals, and homes for incurables and for the old and helpless.

To stand by, to a woman means to supplant the blue cow of Eastern legend, or the tortoise or Atlas, and bear the world, not only on one's head and shoulders, but on one's heart as well. Nevertheless all over this world women are doing it, quietly and gladly, without sounding of loud timbrels, or blowing of trumpets.—Ainslee's Magazine.

Buttermilk Craze is On. Buttermilk is menacing the supremacy of the mint julep and the claret lemonade as a cool weather drink. Consumption of the creamy fluid has become so great, tradesmen say, that they order twice the supply which they bought for last season's patronage.

The buttermilk fad is an enthusiastic individual. He declares his favorite drink is much more cooling than beer or any other beverage alcoholic or W. C. T. U.; that it will cure anything from dyspepsia to congestion of the brain, and that one glass of buttermilk contains as much nutriment as a pound of beefsteak, or something of that sort.

It is true that physicians are prescribing the drink for many forms of stomach trouble. Heretofore it has met met with indifferent favor among medical men, but recognition of its merit is becoming more extensive, and today thousands of persons are imbibing their pint or quart per day, according to the terms of their prescriptions.

The majority of saloons, drug stores, restaurants and other places where drinks are sold have added buttermilk to the list of refreshing fluids they have on hand. It is said that a movement is to be started to form a Buttermilk Drinkers' Benevolent and Protective Association, but there has been no verification of the report.

To the grief of many temperance advocates the growing fad met with a severe setback while the Elks were gathered in Milwaukee, but the white ribbons took courage as the carnival season ended, and now the buttermilk craze is marching on with renewed vigor.

FRANK COLLIER DEAD

Chicago Attorney Well Known for His Eccentricities, Left a Will at the Myers House.

Frank Howard Collier has bidden adieu to courts, hospitals and asylums. He lies dead in a Chicago undertaking establishment.

The once famous lawyer expired Saturday at 11:30 o'clock in the county hospital, to which place he had been taken on July 26th last, a victim of paralysis of the legs. No relative witnessed his passing, only a physician and nurses of the institution being present when his earthly troubles ended.

For weeks Mr. Collier had lain at his home penniless and unattended, suffering alone the miseries of pain and poverty. Recently a trepanning operation was performed, and it was thought that the removal of a clot of blood and a piece of bone would restore the former mental strength of Collier, but the expectations proved groundless.

Brilliant Career Recalled. The career of Collier has been notable. Before the assault that changed a brilliant attorney into an extravagant and irresponsible person, he was one of the most noteworthy figures at the bar of Chicago. He was counsel for the West Park board, attorney for the Chicago, Burlington and Quincy railroad, a member of the board of education and a member of many clubs, his practice was large and he had a fortune of over \$100,000. He was selected as the American attorney for a London paper in the Piggott forgery case, and when he visited England was presented to Queen Victoria.

Collier was well known in Janesville. He stopped here for weeks at a time in the course of his erratic wanderings. He usually registered at the Myers house, but he ate and slept wherever the desire for either overtook him. He was a brilliant talker and always had a crowd around him.

Last Saturday while his old room at the Myers was being overhauled an old memorandum book was found which contained besides some entries of fees and a lot of railway cash fare slips, a will. It was written on the back pages of the book and was duly dated signed and witnessed. The will provides for the disposal of his head, brains and body to different medical institutes and his personal effects are to be given to many notable Chicagoans, all mentioned by name. It is a unique document and was evidently written when he was under one of his hallucinations. The funeral will take place in Chicago tomorrow.

EDITOR LIBBY HAS NO USE FOR TOBACCO

The Evansville Enterprise Man Runs a Half Column, with Two or Three Periods to Prove It.

Editor Libby of the Evansville Enterprise, after reviewing the drouth spell and the damage connected with it, in this week's paper, philosophizes thus in regard to tobacco:

"Financially the failure of the tobacco crop this season will mean a great damage to the country, but it should so discourage the growers that they would resort to some other product just as profitable as they may, it would prove one of the greatest blessings that ever visited us; no raiser of tobacco has ever become rich from its growing, while we will acknowledge that many of its purchasers have to quite an extent, but not excessively so, as many have in other vocations; but very few of our greatest capitalists have made their wealth from tobacco, while a majority of them have in mining, oil, and many other useful vocations."

"We do not actually believe that the citizens of Rock county are one cent better off, if they are as well, as if they had never grown one acre of tobacco; but now that they have large amounts of capital invested in its raising no doubt they will continue in the business until visited by more destructive seasons or such a destructive plague as shall render its growing impossible, as the growing of wheat became impracticable, and had to be principally abandoned in this section, but none think that we have suffered any severe losses even from abandoning this crop here farmers soon adopted the stock and dairy business which was proved just as remunerative and better, and as we have said we now believe that if farmers would abandon the growing of tobacco they would soon engage in a more lucrative business and certainly could be no more detrimental to their brother man, for we believe and know that the growing, handling, and everything connected with tobacco has a detrimental, degrading influence with all who are in any way connected with it, no matter what their connection with it may be, even in the stripping and assorting rooms where there are many good and well meaning people employed the very worst people may also be associated with them there, wholly unbeknown to them or their employers, for in the busy season none hesitate to employ the very best or the very worst who may apply."

"On the whole we do not think the associates connected with this business are the very best nor most elevating for the best society; our young men learn its use there and in this connection many other vices are contracted, and while there are just as good citizens as have, employed in tobacco warehouses the very worst are employed there also and all must associate together.

"If the drouth we have experienced does away with this industry or even discourages it to a great extent, we believe it will prove a greater blessing than curse, for no doubt the same people can and will engage in just as lucrative and better employment. Money is not all we ought to care for in this world. We may leave a better record than a large bank account."

Excursion to Oshkosh. The C. & N. W. R. R. will run a personally conducted excursion to this beautiful city, Sunday, August 11. Train leaves Janesville 8:00 a. m., returning leaves Oshkosh at 4:00 p. m. This city is situated at the head of Lake Winnebago, one of the most beautiful lakes in Wisconsin. Only \$1.50 for the round trip.

Excursion Rates to Edgerton via C. M. & St. P. Ry., Aug. 7th, good to return until Aug. 8th. Account picnic.

NEWS AND GOSSIP OF BADGER STATE

The following story is told of a Platteville bachelor, who, out of patience with the flies which invaded his room, got two sheets of sticky fly paper which he placed on chairs near the window. Returning late that evening he forgot the tanglefoot and sat down in one of the chairs. He soon got up and proceeded to pick the paper off the south end of his trousers. As it was a bad place to get at he took the pants off and while cleaning them he unconsciously sat down in the other chair and then stood up and meditated.

A young man of Gratiot was at a social function the other evening where it fell to his lot to entertain a young lady and as she was pretty and full of life he enjoyed himself very well. She wore a short sleeved gown and he thought he had never seen such beautiful arms, but she seemed ill at ease and finally said: "I was vaccinated the other day and it took beautifully. I could almost scream at the arms." He gazed at the faultless arms and said: "Why, where were you vaccinated?" "In Darlington," she sweetly said, and the young man nearly fell off his chair.

Mrs. Henry Gagan and son are visiting friends in Clinton.

One Dose
Tells the story. When your head aches, and you feel bilious, constipated, and out of tune, with your stomach sour and no appetite, just buy a package of
Hood's Pills
And take a dose, from 1 to 4 pills. You will be surprised at how easily they will do their work, cure your headache and biliousness, rouse the liver and make you feel happy again. 25 cents. Sold by all medicine dealers.

J.M. BOSTWICK & SONS.
THE BIG STORE 20, 22, 24, 26, 28, S. MAIN ST., JANESVILLE, WIS.
WE KEEP THE QUALITY UP

Foulard Silks

are down. To make a clean sweep of every yard of Foulard Silk in our stock we have put them into two lots and offer them until sold at 65c and 45c. They.... will eagerly be snapped up, for such beautiful Foulards.. at the figures we mention cannot be made for the prices at which we are offering them. We show them in the satin finish and fine surah weave; a large collection of very choice patterns in all colors and black with white figures.

Women's and Misses' Tailor-Made Suits

As an extra inducement to buy a Suit we are offering ours at greatly reduced figures. Have almost any price Suit one might desire and desirable styles to select from.

THE TIME TO ACT

is the right time. The right time to act is right away if you would secure some right smart bargain in Summer Goods.

Parasols

for these hot, dazzling days—pretty summer novelties for both women and children, can be bought for little money. We offer them all at first COST.

Wash Goods

are fast disappearing. The styles of most of them are not so extreme that they will look "out" if worn another season. Buy a dress now at the reduced figures, you can wear it for two months yet.

All Remnants at very low prices to close them out.

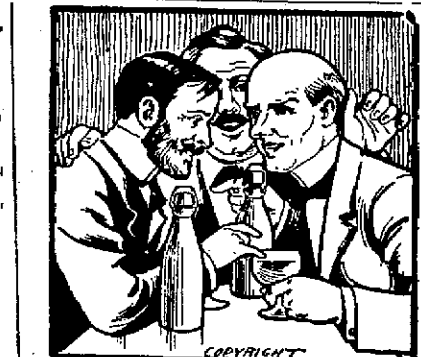

Shirt Waists

are good all winter. Buy all you want of them while they last. Ours are so different than many of the factory made waists; the styles average good, they fit nicely, and are made by experts.

At 75c

a large assortment of colored waists, formerly \$1 and \$1.25, about what the material would cost. Others at 40c, 55c, \$1, \$1.75, about half the former prices.

80c for pretty white waists; others \$1.15 and \$1.65—all very much less than they were.

We Enjoy Talking
about our beer, because it deserves all the good things we can say about it. Our customers talk about it too. Kept handy at home it adds to health and comfort these summer days. By the case:
Two dozen pints \$1.00
Two dozen quarts 1.75
Delivered to any part of the city.

LATE TELEGRAPHIC NEWS

WANTS A COURT-MARTIAL

Ex-Secretary Chandler Accuses "Fighting Bob" Evans.

MAY APPEAL TO CONGRESS.

Will Carry Up Case in Event Long's Department Fails to Act as Requested—Says Evans Is Guilty of Conduct "Unbecoming an Officer."

Washington, D. C., Aug. 5.—"Fighting Bob" Evans will be court-martialed for criticizing in "A Sailor's Log" former Secretary of the Navy Chandler, if the latter can bring enough influence to bear to secure the result. Those who know the tenacity of the New Hampshire ex-Senator claim he will not give up the fight against Admiral Evans until the latter has been brought before a court. His determination to press the matter is made stronger because ex-Senator Chandler's letter to Secretary Long has been ignored by the Secretary of the Navy and Evans. When the letter of protest against Admiral Evans' language was received it was referred to Evans, but no attention whatever was paid to it. "Fighting Bob," who did not care to become involved in a controversy, simply placing the communication on file. Secretary Long, in discussing the matter said: "It is simply a tempest in a teapot. It is entirely too trivial to notice. I have no time to devote to such petty things." Ex-Senator Chandler did not relish the treatment accorded him by the present head of the Navy Department and he has been quietly nursing his wrath. After waiting a reasonable time for a reply and not receiving one Mr. Chandler has determined to force the fighting. He believes more deference should be shown him and that a naval officer should be severely disciplined for discourtesy to his former chief. Admiral Evans, when seen, declined to discuss the matter, saying he did not care to become involved in a controversy with Mr. Chandler. Secretary Long and Mr. Chandler are both out of the city. During the absence of Secretary Long Assistant Secretary Hackett will do nothing. It will require all the influence of the ex-Senator to have Admiral Evans called to account, as Secretary Long frankly said he would not take cognizance of the matter. Any person not connected with the naval establishment can prefer charges against an army or naval officer, and the charge should be investigated. If ex-Senator Chandler fails to get satisfaction from the department he will appeal to Congress, in which body he has many warm friends. Mr. Chandler denounces Admiral Evans' conduct as "unbecoming an officer and a gentleman." If the charges should be sustained the offense is one, which calls for a court-martial, the extreme punishment being dismissal. It is claimed also by some of Mr. Chandler's friends here that Admiral Evans' criticism of a former superior officer for official acts is "conduct to the prejudice of good order and discipline." Such an offense may be punished as a court-martial may direct, the limit being dismissal from the service.

Genuine Rocky Mountain Tea is never sold in bulk by peddlers or less than 35 cts. Don't be fooled, get the tea made famous by the Madison Medicine Co. Smith's Pharmacy.

New Parlor Cars.

Two parlor cars, named respectively "Janesville" and "Beloit," "spick and span new" from the builders have been received from the Chicago, Milwaukee & St. Paul Railway and will be placed at once in the service for which they were expressly built—between Chicago, Janesville and Madison.

The new cars have an interior finish of mahogany and are seventy-five feet in length. The exterior is the St. Paul standard color. In addition to the usual parlor, seating thirty people, each has a large observation room, a state room and buffet. The latter, besides being fitted for ordinary buffet service, is equipped with a broiler, from which steaks, chops, etc., can be served. The equipment in service on the St. Paul road to and from Southern Wisconsin points has received many favorable comments. The new cars—the handsomest so far built—will complete the finest day trains leaving Chicago.

Less Than Half Rates to St. Paul, Minneapolis and Duluth, Minn., Via C. M. & S. P. R'y.

Aug. 1st to 10th, and Sept. 1st to 10th; good to return until Oct. 31st. For rates, time of trains, etc., call at passenger station.

Lake Geneva Via Harvard and Electric Line, 86 Cents.

The C. & N. W. R'y will hereafter make a rate of 86 cents every day to Lake Geneva via Harvard and the electric line.

Red is a danger signal on the railroad, on a fellow's nose and a woman's face. Men and women use Rocky Mountain Tea and get genuine rosy cheeks. 35c. Smith's Pharmacy.

Route Gang of Kluks.

Lexington, Ky., Aug. 5.—The Kluks were repulsed in Jackson county by John Moore, a farmer residing near Ferry Hill. Moore has had some difference with his wife. This the Kluks attempted to correct and an armed band called on him. Moore escaped from the house and took refuge behind a corncrib about 100 yards away. The Kluks party advanced and Moore fired. One man was killed and several were wounded. Moore thinks he recognized several of the men and will make complaint to the grand jury. The affair has caused great excitement and Moore has laid in a supply of weapons and ammunition to resist further attacks.

Hunter Dies by Accident.

Wabash, Ind., Aug. 5.—Frank Coburn of Spiker, four miles north of this city, died of a gunshot wound received while hunting. He and his companions became separated, Coburn being alone at some distance from his friends. The latter heard the report of Coburn's gun, followed by screams. When they rushed to his assistance they found the hunter lying on the ground with a wound in his abdomen.

Drink Causes Awful Crime.

Findlay, O., Aug. 5.—Without a word of warning and seemingly without provocation Alexander McCullough, a prominent citizen of Crawfordsville, twelve miles west of here, shot and killed his wife and then blew his own brains out. The supposition is that he was insanely drunk when the tragedy occurred. The affair took place in the presence of their five children.

Agents Jailed for Fraud.

Decatur, Ill., Aug. 5.—John Molloy and M. Mahoney, who advertised for men to work on a street car line, were arrested by the Decatur police and are in jail. An attempt to convict them of fraud will be made. A number of men applied last night. Molloy & Mahoney told the applicants they must pay down \$10 to apply on a uniform and they would be sent to Belleville, where they would work on the Belleville Traction Company. One of the men wired the Belleville company and received word that it had no agents out and wanted no men. Twenty men who had been told to come back this afternoon paid their \$10 and got railroad tickets.

Splits Her Husband's Head.

Lima, O., Aug. 5.—W. A. Jones returned home early this morning intoxicated and accused his wife with infidelity. She took a hatchet and split his head open. She then ran to a policeman's house and told him her husband assaulted her. She has disappeared and Jones will die.

On Shipped to Japan.

New York, Aug. 5.—Two shipments of oil, aggregating over three million gallons, left Bayonne yesterday for Japan, on the British bark Brilliant and the American bark Acme. The trip will be a speed test for both vessels.

FILIPINO REBELS ROUTED

American Troops Occupy Three Towns in Mindoro.

THE OPPOSITION IS SLIGHT.

Insurgents, Led by a Deserter, Flee Into the Interior—President of Manila and Dagupan Railroad Said to Have Aided Insurgents.

Manila, Aug. 5.—The towns of Calapan, Naujan and Pola, on the northeast coast of the island of Mindoro, were occupied by a battalion of the Thirtieth Volunteer Infantry and Macabebe scouts after a slight resistance. The insurgents, numbering 250, fled into the interior. Their commander, Howard, who is a deserter, is hiding in the mountains, and the Americans are in pursuit. Adjutant General Corbin, who has returned to Manila after an eleven days' tour of the islands, including a visit to the Sultan of Jolo, with whom he exchanged presents, says: "The trip has considerably broadened my views, as well as affording me great pleasure personally. What I have seen should be of considerable benefit to the government. In my opinion the changes now being made in the Philippines could not be carried out by abler hands than those of Governor Taft and General Chaffee. Both have had wide experience. Both are men of tact and ability. Their duties are entirely separate, and yet in many ways co-operative. One could not very well go forward without the other. I am gratified to observe the firm friendship established between them, and I am confident that, under their guidance, the Philippines will get out of trouble into peaceful waters." The adjutant general left Manila for Shanghai this afternoon. The civil commission has chartered a steamer for a trip among the northern islands in the interest of the establishment of civil government. The journey will be begun in about ten days. Congressman Shafroth of Colorado, who has been closely investigating the question of public lands in the Philippines, urges the commission to take steps to establish the homestead laws, allowing any persons doing work to the value of \$100 on government land to occupy a certain amount of it, and, if possible, assisting in stocking it. He also urges a similar arrangement with reference to mining claims. The troubles between the Sultan of Jolo and other native chiefs, which has resulted in some fighting and considerable loss of life, are being closely watched by the military authorities, who are ready to interfere should occasion demand.

Growth of the Beard.

It has been calculated that the hair of the beard grows at the rate of one and a half lines a week. This will give a length of six and a half inches in the course of a year. For a man 80 years of age no less than twenty-seven feet of beard must have fallen before the edge of the razor.

WISCONSIN WEATHER FORECAST
Fair tonight and Tuesday probable showers.

A few days ago a Russian officer informed George Kennan, the expelled American traveler and lecturer, that his presence in Russia would no longer be tolerated. Mr. Kennan knew that Russia would expel him when he went there after devoting fifteen years to writing and lecturing on Siberia and denouncing the Russian convict system. He could expect nothing else. Perhaps Mr. Kennan's reputation needed the little stuffing it would get from notoriety. Mr. Kennan began his attack in a series of magazine articles in 1885, which were very readable because the travels they depicted were filled with the wildest adventures. In these articles he exposed the convict system in such a vivid and effective way that they attracted much attention. Of course the Russian censor blotted these articles out of existence in that country which only served to attract more attention. Mr. Kennan followed the articles with books on the subject of Russian aristocracy and nobility, and then made a lecturing tour of the United States illustrating very vividly his experiences, and picturing the sad fate of the exiles so faithfully as to bring the wrath of the czar down on his head. Mr. Kennan will probably renew his lecturing and his writing, and his expulsion will serve to increase the number of listeners and readers.

On July 29, the constitutional convention sitting in Havana proposed an election law some of the provisions of which we enumerate. Governors and legislators must be thirty years old, and must have resided in their province two years. He must be the head of a family and must have paid taxes at least one year previous to his election. To be a presidential elector a man must be a Cuban with eight years residence if naturalized, or two if native born. Thirty days after election the senatorial electors meet and elect four senators from each province, but each elector can vote for only three candidates.

The requirements are a little more rigid than those in force in this country and are framed with the purpose of confining the officers of the island to native born inhabitants, rather than allowing foreign politicians to get the upper hand.

The selection of Gov. Allen's successor in Porto Rico has not called forth any opposition from the press, and we may look upon the new governor, Mr. Hunt, as a thoroughly competent person to fill the position successfully. Mr. Hunt has had considerable experience in politics in Montana, where he was elected attorney general and member of the legislature. Later he was one of the associate judges of the state. The appointment means that the present policy as regards government will continue, and the civil administration and free trade established is working so satisfactorily as to leave no room for doubting Mr. Hunt's successful administration. The finances of the island are in as good shape as those of any state or territory, which is a strong argument in favor of President McKinley's wisdom in administering the affairs in that commonwealth.

Captain Hobson refused to allow any women to kiss him after his lecture at Madison. Evidently Hobson has become jealous of the un-kissed professor at Chicago university.

The deposits in the savings banks in the United States increased \$43,865,053 during the past year. Everyone appears to have money these days.

Bryan thinks the Hon. William Jay Stone would be a hard proposition as a presidential candidate—much harder than the eminent David Bee Hill.

It is becoming evident that a new department of insular affairs is needed by this government.

The gentleman who proposes to cure hay fever with rag weed must

be a relative of the gentleman who proposed to cure it by freezing the patient.

The Fall River cotton mills have been in operation for twelve years a profit sharing principle which has never failed to yield a dividend to the hands. This dividend usually amounts to six or seven per cent. of their wages.

In view of MacLay's statements it may be said that the latter day Sampson is also armed with the jawbone of an ass.

David B. Hill is making a still hunt, however, and we suspect that William J. Stone is the quarry he seeks.

Thousands of Chicago horses have a disease that resembles the grip, but it is not thought that they caught it from the cable cars.

A firm of Chicago brewers have attacked the beer trust. They charge bad management, and say the project has run wholly to foam but not to profit.

The Hon. Robert Fitzsimmons has scored again. This time he took his pen in hand and "batted out" a book.

The Hon. William Jay Bryan evidently favors a continuous candidacy of Williamjays.

To all naval officers—Be short on talk—Long.

A ROOSTER THAT CACKLED.

Row Mr. Red Top caused Mrs. Speckle to faint entirely away. "Cut-cut-cut-cudawcut!" cried Mrs. Speckle. "Come, everybody, and see my new egg." Mr. Red Top and the rest of his wives came hurrying up. The hens crowded about, eager to look, but Red Top turned away disgusted when he saw the egg. "What a lot of noise you hens make over nothing!" said he. "Noise, is it?" said Mrs. Speckle. "It's you who are jealous because you can't cackle like us. You can only flap your wings and crow, and it sounds as if you had a bad cold."

The rooster shook with anger and struck at her with his beak, but she was half way across the yard by that time. So he flew up on the fence and relieved his feelings with a loud crow. While Mrs. Speckle cackled mockingly. But Speckle was right. Red Top was jealous of her beautiful voice—frantically jealous. The other hens tried in vain to cheer him up. "How conceited she must be!" said Mrs. Plymouth Rock. "And such an ordinary hen too!"

"The idea of you being jealous of her!" said Mrs. Brownie. "Poor creature, I suppose she doesn't know any better!"

But Mr. Red Top did not answer them. He went behind the barn and stood on one leg and shut his eyes and thought the matter out. That is the best position for thinking. You should try it yourself.

"No reason why I can't cackle," he thought. "I will just to show her how it should be done. A rooster can do everything better than a mere hen." So he took a long breath and made a funny sound in his throat, something between a cough and a crow. "I hope nobody heard," said he. "I'll try again." The next time was more successful, so he kept on practicing.

Next morning Mrs. Speckle cackled exultantly, for she knew Red Top was listening, and she wanted to crush him. She peeped at him out of one eye to see how he took it. Mr. Red Top looked up, cleared his throat and then, "Cut-cut-cudawcut-cudawcut!" he cackled.

And poor Mrs. Speckle dropped her head and with one feeble flutter of her wings fainted entirely away.—Lys Lovett.

A Young Financier.
"Say, mamma, how much am I worth?"
"You are worth a million of dollars to me, my son."

"Say, mamma, couldn't you advance me 25 cents?"—Time.

Sanitary Science.
Since the general application of sanitary measures, the mortality of the last fifty years has been reduced one-half. Dr. Parker, of London, has estimated that small-pox has diminished 95 per cent.; deaths of fevers generally have declined 82 per cent.; deaths from typhus fever, 95 per cent.; from scarlet fever, 81 per cent.; and from diphtheria, 59 per cent. The operation of ovariotomy has added 40,000 useful years to women's lives.

Robinson Crusoe's Muskiet.
A Philadelphia firm of auctioneers recently offered at one of their sales Robinson Crusoe's muskiet. It was a fine old flintlock. It was in the possession of a grandniece of Alexander Selkirk, and its pedigree is much more unclouded than is usually the case with objects of this kind.

Australian System of Voting.
In 1888 the first law adopting the Australian system of voting was passed in Kentucky, and by 1898 the Australian system had come into force by legislative action in every state of the country, except North Carolina and South Carolina.

WASHINGTON LETTER

[Special Correspondence.]

"Washington is certainly a city of souvenirs," said Mr. Robert M. Houch of Pittsburg to the correspondent. "You can get the profile of the Father of His Country in chewed up thousand dollar bills for 15 cents or the only 'American National Spoon' for \$4.98. Souvenir hats, umbrellas, canes, capitol, library, White House, Washington monument, Mount Vernon and 100 other varieties of souvenirs are as thick as toothpicks in a cheap lunchroom. When I walk along your business streets, the shop windows remind me of one of the big international expositions."

"There seems to be something which appeals to humanity in the souvenir business. I laugh at the appalling number of the things which are got up for the sole purpose of enticing the stranger within your gates, but I buy souvenirs all the same. I have a chip from the Washington monument and all the rest of them, and I know that when I get home my wife will put some around the house, and people will be interested, and she will be proud of them. Then the children will take their share, the youngsters the vicious looking poodle dog, made of macerated greenbacks, and the big girls the spoons, and generally I will make a bit. It is a strange business when you come to think of it, but it is one that appeals to every one away from home and in a place of note. My own choice is for photographs, and I have found them the best, most lasting and most valuable mementos of the places I want to remember."

Japan's Chinese Indemnity.

President McKinley is expected back in Washington within a short time for a talk with his cabinet officials and for the transaction of any business that may demand his personal attention here. There are some features of the Chinese problem that may have to be passed upon by the president. It is said that nothing has been heard at the state department from Commissioner Rockhill in regard to the hitch over the Japanese indemnity, which seems to be the only stumbling block in the completion of arrangements. Japan, it will be recalled, contented herself with the extremely modest indemnity of \$24,000,000, which represented the obligations actually incurred by her relief and other expeditions. When she came to arrange for the floating of the Chinese 4 per cent bonds with which the indemnities were to be paid, she found they would not command in her market more than 86 per cent of their face value. She accordingly went back to the powers to ask for an increase to make good the 14 per cent discount. To this the powers were not ready to agree, and Russia was particularly hostile. The attitude of the United States, which Mr. Rockhill has represented, has been that this extra allowance to Japan will be fair, and we have been willing to grant it if the other powers would agree. The commissioner's silence is thought to indicate difficulty in reaching an agreement.

Runs in the Family.

The announcement by Charles H. Allen that he will not return to Porto Rico and the certainty that William H. Hunt will succeed him as governor recall the fact that Mr. Hunt comes of a family of insular colonial dignitaries. Thomas Hunt, his great-grandfather, was an Englishman and acting governor of the Bermudas on several occasions by virtue of his position as a member of the upper council of that colony for a number of years, beginning with 1730. A son of Thomas Hunt, named Robert, became a resident of the Bahamas and held various high offices there, among others the presidency of the king's council, which made him acting governor on two occasions somewhere about 1790. The present colonial representative of the family began, like the Hunts of the earlier generations, with an office below the highest and has served as acting governor during the absence of his chief, but when he holds the president's commission as governor he will have eclipsed them in actual rank.

More Asphalt For Washington.

Mr. P. R. Quinlan of Syracuse and the Warner-Quinlan Asphalt company has come to Washington to look after some details in connection with carrying out the contract awarded his company by the District government to pave 62,000 square yards of streets in Washington. He said:

"We are erecting a plant for this work on the grounds of the Brennan Construction company here and expect to be able to undertake our contract very soon. Our company is still getting its asphalt from Trinidad, but we hope soon to get it from Venezuela. The long drawn out controversy about the Venezuela asphalt is still in the courts, but we may be able to obtain material from there before long."

Patent Office History.

The preparation of a complete history of the patent office has just been begun under an order of Commissioner of Patents Frederick I. Allen, which directs that Principal Examiners Campbell, Kinnin, Newton, Sewall and Witherspoon, with the chief of the issue and gazette division, Mr. Babson, shall elect a chairman, who shall co-operate with the chief clerk, E. V. Shepard, in the compilation of its material, the appointment of an editor to write the book and the offering of a plan for its publication and distribution. Mr. Witherspoon has been elected chairman.

Lieutenant Colonel Watanabe of Tokyo has just come here as military attaché to the Japanese legation. He is the first officer of the Japanese army to be stationed here.

CARL SCHOFIELD.

The annual expenditure of the Mexican federal government today is three times what it was 20 years ago.

JANESVILLE MARKET PRICES

Quotations on Grain and Produce Are Reported for The Gazette.

Reported by R. E. McGuire.
August 3, 1901.
FLOUR—Retail at 90c @ \$1.10 per sack.

THE KNIGHTS OF COLUMBUS MEET

NEW CATHOLIC FRATERNAL AND SOCIAL SOCIETY ORGANIZED.

Large Visiting Delegations from Rockford, Madison and Milwaukee, Attend the Ceremonies of Installing a New Council in This City Yesterday—Feast Was Provided.

The local lodge of the Knights of Columbus, a fraternal and social Catholic organization which is endorsed by the Catholic church and one of those whose objects is the fostering of religious principles, was born amid the most auspicious circumstances yesterday and started most happily on its career. Its charter roll holds the names of fifty-five prominent Catholics of the city.

Large visiting delegations from Rockford, Madison and Milwaukee with a few visitors from Chicago were in the city to participate in the installing the new council. The Rockford delegation was the largest, including sixty-five members and was registered at the Myers. The Milwaukee delegation of fifty-five gentlemen and the Madison delegation fifty-one strong, were registered at the Grand. The impressive ceremonies which marked the installing of the new council were held in Assembly hall and began at 1:30 o'clock, the entire afternoon and early evening being devoted to council work.

About 9:30 o'clock the serious work of the day was abandoned and the members of the local order and visiting knights gathered around beautifully decorated and heavily laden tables where a feast of good things for the inner man was prepared. The banquet, which was a royal one, was served by the wives and sisters of the gentlemen belonging to the council.

Supper was followed by an entertaining program of toasts. J. J. Cunningham presided, with his usual grace as toastmaster and the address of welcome was made in excellent style by Rev. Dean E. McGinnery. An able response on the part of the order throughout the state was made by Hon. James L. O'Connor, of Milwaukee. Other eloquent and appropriate addresses were made by Henry Killhea, of Milwaukee, Hon. J. W. Brown, of Rockford, Prof. Monahan, of the University of Wisconsin, Rev. Father Naughton and Hon. L. B. Murphy, of Madison, and J. L. Mahoney of this city.

Excellent music was furnished by Smith's orchestra and George Hatch sang two selections with orchestra accompaniment very nicely. One of the features of the evening was a vocal solo by J. Phelan, a noted baritone of Chicago, who was compelled to respond to an insistent encore.

About 250 gentlemen were seated at the banquet tables, and the occasion was a memorable one for all who participated in it.

BEYOND LIFE'S CARES.

Mrs. Frank Hogoboom's Funeral
The remains of Mrs. Frank Hogoboom arrived in this city from Montclair, N. J., yesterday noon at 11:47 o'clock, accompanied by the bereaved husband and sister, Mrs. J. M. Bostwick of this city. They were met at the Chicago & Northwestern depot by a large number of sympathizing friends and the funeral party went directly to Oak Hill cemetery where a brief service was held, conducted by the Rev. W. A. Hall at the grave. The appropriate song service was beautifully rendered by a quartet consisting of Mrs. A. O. Wilson, Mrs. Fanny L. Clark, C. N. Vankirk and L. D. Bennett. Those who served as pall bearers were J. L. Hay, O. G. Bates, H. F. Nott and C. Sandell, of Beloit.

R. S. Waite Funeral
Funeral services for the late R. S. Waite were held from the Baptist church at Afton Sunday afternoon at 2:30 o'clock. The large attendance and the numerous floral offerings bore eloquent testimony to the high esteem in which the deceased man had been held. Rev. Hanson, the pastor of the Baptist church at Beloit, was the officiating clergyman and at the close of the sad service the interment was made in the Afton cemetery. The four sons bore the form of their father to its last resting place by the side of the mound under which all that was mortal of his devoted wife was placed several months ago.

Funeral of Baby Slawson
The home of Mr. and Mrs. Charles Slawson, 3 Hyatt street, rests under the shadow of the darkest gloom and the bereaved parents are heart broken over the loss of their youngest daughter, little Delma Elizabeth, who passed away at 11 o'clock last night, a victim of that dread disease, diphtheria. The funeral was strictly private and was conducted from the home this afternoon at 3 o'clock by the Rev. Walter A. Hall.

MADE LARGE PURCHASE.

One thousand dozen of extras in highest grade canned and bottled fruits and vegetables. Our lady solicitor is now showing samples and a phone call will bring her promptly to your home. We strongly advise you to buy now while we can give you the advantage of low prices due to our early contract given for these goods. The market has already advanced from 10 to 30 per cent, and packers have withdrawn all offerings. This market advance we now save you as our contract calls for these goods delivered at former low prices. By this it can be seen we are in a position to save you money. GRUBB.

Charles Burdick of Baraboo, an engineer on the Northwestern, slipped off the running board of his engine while it was standing in the yards in this city this afternoon and strained the ligaments of his back so badly that he had to be taken to his boarding house. Dr. E. F. Woods was called to attend him and thinks he will be around in a short time.

If you have a house to rent or sell there is no better way of reaching the masses than through The Gazette classified column. Three lines three times for 25 cents.

When one can purchase \$16.50 suits at \$8.88, such a snap is in the line of a sacrifice. Such a cut rate sale is now going on at Amos Rehberg & Co's store on the bridge.

All ladies' colored shirt waists that sold earlier in the season at \$1 each have been marked down to 50 cents by Bort, Bailey & Co. at their special August clearing sale.

The celebrated "Gem" ladies' colored shirt waists that have been selling at \$1.50 each have been cut to 75 cents by Bort, Bailey & Co.

Invitations have been issued for a card party on Wednesday afternoon at 2:30 o'clock by Mesdames Carpenter, Doty and Putnam at the home of Mrs. Mary J. Lappin, 252 Park Place.

An interesting young men's meeting was held at the Y. M. M. C. A. rooms at 3 p. m. yesterday, which was largely attended by the young men of the association. The topic, treating of the needs of the present century, was highly interesting. Music was furnished by the male quartet.

The Rock County Telephone company have a force of men engaged in moving the cables from the roof of the Jackson block to an opening in the Main street wall of the building on a level with the office. The rebuilding of the block has made this change necessary. The cables are now delaying the work of finishing up the fifth story of the building.

Special Round Trip Rate to New York City by C. M. & St. Paul Railway

Daily from July 20th to Oct. 20th. For rates, limits and routes, with stop over privileges call at C. M. & St. Paul depot.

TOURISTS ARRIVE SAFE AND SOUND

The "Bower City" Car Reached Here Yesterday—Party Had Traveled About 8,000 Miles.

At 10:10 o'clock yesterday morning the tourist car "Bower City" attached to the train from St. Paul over the Northwestern, rolled into the city, bringing the party from this city back home safe and sound and in the best of spirits.

During the time that the party was away they traveled about eight thousand miles. They went from Janesville to San Francisco over the southern route and returned home over the Canadian Pacific through Canada.

They left Janesville on July 6 and during the entire trip struck only three days of very warm weather. Most of the time they needed heavy underclothing during the day and plenty of covering at night. The trip was an ideal one and all enjoyed themselves thoroughly. Each day brought forth something of interest, which kept the party busy.

The scenery on the Canadian Pacific through the mountains is described as being magnificent. At one point in the Grand Canyon they had to walk about five miles to go down thirty-five hundred feet. The slope was so steep that the only way that they could get down was to follow a winding path across the face of the bluff.

At one part they were so far north that a newspaper could be read with ease at 9:30 o'clock at night.

The party had one disagreeable experience just after they left Sacramento, and came near losing some of their valuables. A couple of tramps were stealing a ride on the top of the car and after the train was well under way and all were asleep, one of them climbed down and found the car unlocked and started to go through the berths.

He got into Harry McChesney's berth first and felt all around for valuables. His movements awakened McChesney who asked who was there and what was wanted. The fellow said he was the porter and wanted "two bits." McChesney told him that he did not have it and the man left. He next entered Mrs. Theodore Goldin's state room and in feeling around his hands came in contact with her face and awakened her.

She asked who it was and received some answer about its being the brakeman. She called to her husband that someone was going through the car. He jumped up and caught the man just as he reached the rear platform. After a short struggle Mr. Goldin got the best of him, and with the help of the rest of the men tied him up and kept him until the next station was reached where he was turned over to the police.

The next morning an inventory of the effects of the party was taken but nothing was missing. The man caused considerable excitement in the car for a short time but waked up the wrong person in Mrs. Goldin.

The train ran off an open switch on the way home and it is supposed that strikers on the Canadian Pacific tried to wreck the train, as the west bound train had passed the switch but a short time before. Outside of these two occurrences the trip was one that will be long remembered.

The party brought home many rare and beautiful souvenirs of the places that they visited.

IMPERIAL BAND AND LABOR UNION

The Trouble Between the Two Has Reached an Acute Stage—Porter Band is Hired.

For the first time in nine years the "Imperial" or a Janesville band will not furnish the music for the Labor Day celebration. The Porter band will lead the unions in their parade and furnish the music for their other entertainments.

All the trouble is caused by a non-union man belonging to the band, and the union leaders are trying to force him out of that organization. The band on their part are determined that their men shall not be forced out, and refused to accept the resignation of the non-union man.

They were told by the union leaders that their services would not be required on Labor Day and the Porter band has been hired in their stead. The first trouble occurred between the band and the labor unions when the "Federal Labor union" was formed in this city some time ago. At that time there were two non-union men in the ranks and the union laborers refused to march behind the men that were not members of the order.

Since that time one of the men resigned from the band. He sent in his resignation a short time ago but it was not accepted and the members of the band decided they would throw up the contract with the labor union for Labor Day rather than be ordered to get rid of a good member.

The labor union did not stop at not hiring the band but have notified some of the members that employ labor, that if they do not leave the band and stop playing with the non-union members, they would take the union laborers out of their employ.

The band members object to this sort of tactics and say they will not be dictated to as to who shall belong to their band. If the labor union does not care to hire them for Labor Day on account of the non-union men they are at liberty to get some other band.

FOULARD SILKS.

"The silks that we sell about in our ad today are bargains worthy of that name. J. M. BOSTWICK & SONS.

Reduced Rates to Freeport, Ill. via C. M. & St. P. Ry. Aug. 3d to 9th, inclusive, good to return until Aug. 10th. Account races.

THREE HUNDRED MEN WANTED

every month to talk to me about the merits of the Aetna Life Insurance Company. Give me a few minutes of your time and if you can be pleased on Life Insurance I am sure I can please you. You say your time is valuable, then save your time by signing an application today and get the matter, which you must face sooner or later, off your mind.

ELKS' INITIATION SAID TO BE SEVERE

The initiation of the Elks is said to be as severe as anything in the way of secret societies since the Knights of the Golden Circle, a political organization in war times, says observer in the Madison Journal. One of their practices was to take a man down thirty feet of greased oiled cloth into a tank of water. But the Elks' fun is rough enough. Billy Lenox, who was a secret service man for the St. Paul road—he is dead now, poor fellow—invented the "sacred egg" feature. It is now reproduced in the Madison university initiations. The neophyte was bound with his hands behind him and knelt at a throne. It was the most solemn part of the proceedings. Lenox, who had a deep, impressive voice, with a pathetic touch to it, delivered an essay on the egg, explaining its mysterious character as the germ of life. There is a good deal of sentiment in the Elks ritual and Lenox dragged its very depths. After the candidate had been all stirred up by this vision of the origin of life—remember he was blindfolded—Billy would say solemnly: "And now, brothers, we will break the sacred egg."

He rapped it against the neophyte's head—which might be bald—the contents trickled down, and an awful, a terrible stench flooded the nostrils of the victim. Then the voice of Lenox could be heard as if secretly to his mates:

"Heavens, boys, the egg is spoiled." Those who have been through the ordeal say it is fearful—the dripping of the noisome mass through the hair and beard, and that frightful odor from which there was no escape for the bound victim. Candidates have been known to break out in fearful imprecations, and in rage that would mean violence if they could but have the use of their arms and legs.

It made no difference that the egg was the mere shell filled with pure water and the stench arose from chemicals in a bottle held under the victim's nose. He does not know this at the time.

Another feature is the goat—no ordinary imitation goat, but a truly wonderful mechanism as big as a pony, with, seemingly, eight different motions. The victim grabbed it about the neck and first the motions were to one side with all the force of a catapult; then up; then in another direction. And the harder the neophyte clutched the thing, the more determined the jolts he received.

RAILROAD NEWS.

It is believed in railroad circles that as soon as the Milwaukee road has completed its betterment work on the River division it will put a ten-hour train on between Chicago and St. Paul. The road has completed its contemplated work on the Chicago and the La Crosse divisions and with the work being done on the River division, the track will be in shape to make ten hours easy time. At present the fast mails are making it in that time and carrying coaches behind the mail cars. Some time ago there was a thirteen hour agreement between the roads but the action of one of the roads in carrying passengers on mail trains caused all the rest to do so who could, and now the agreement is in splinters. Passengers are showing a decided preference for the fast trains. The Wisconsin Central and Chicago, Great Western, who cannot make better than thirteen hours at present, objected vigorously to a shorter time, but the public demand has been against any restrictions. The agreement was made to please those two roads.

Since pneumatic shop tools of a portable variety have become so important a factor in all kinds of work, bridge builders have seen that they are of decided advantage to them. The question has always been the supply of air. The Northwestern bridge builders have solved this problem and constructed an air plant on a flat car that can be brought to the scene of their labors as readily as a derrick car or a steam shovel. The plant consists of a 15-horse-power gasoline engine with the necessary condenser and tanks mounted on a car that is set out where the work is going on and with pipes and air hose makes the riveters and other tools as usable on bridge and building construction as in the shop. The compressed air rail loader, similar to the one in use on the Milwaukee road, is also coming into general use among railroads.

Dead leaves have caused wrecks, soap weeds have made running an impossibility, and recently worms stalled a train. This latter was out on the Canadian Pacific when a mass of green worms covered the rails so completely that the drive wheels of the engine would not stick. Sand was tried first, but it did no good, then a broom, and finally a shovel used to clean the track, after which the sand did its work. The train was delayed four hours in getting up a steep grade.

The first use of the telephone for train dispatching purposes was made in Wisconsin, but it waited for the Delaware, Lackawanna and Western to make a long distance use of it. This first use was up on the old St. Paul. Eastern Grand Trunk, the Oconto branch, as it is now called, on about twenty miles of line. Now the D. & W. has experimented with the long distance telephone with gratifying results and has put it in service over the entire line.

The Dells of the Wisconsin. The Chicago, Milwaukee & St. Paul, according to Killebrew, to enable every one to see the wonders of the Dells. The excursion tickets include steam-ride on the river. A special train will leave Janesville at 7:40 a. m., Sunday and returning will leave Killebrew at 8:30 p. m. This is an excellent opportunity for a trip full of instruction, enjoyment and recreation.

BLACK STOCKINGS THE BEST

Fad for Colors Little Affected by the Really Fashionable. It has been frequently announced of late that colored stockings were coming into fashion again, and that black hose would be generally under the ban. There are undeniably some tinted stockings worn with muslin gowns, but only with suppers and these stockings are all lisle thread or silk, with exquisitely fine patterns of open work or incrustations of black or white lace on the instep. A very conspicuous fad, started some time ago, is noted again this season, namely, the wearing of black stockings with white ties and white gowns by women who are in mourning. This is, of course, one of the eccentric fashions that may be mentioned, but are not to be cordially recommended. The gray silk stockings with gray Swede shoes with gray gowns are charming; palest pink, with pink toilets, etc., or the tint of the silk linings of the muslin gown matched in stockings, slippers and gloves is very dainty; but for the women who have not large incomes, and who, perhaps, have feet that are not small, it is pleasant to know that a black shoe and black stockings can always be fashionably worn with any sort of gown in the wardrobe; even with a delicate evening dress, a handsome black openwork stocking, and a French kid or patent leather slipper, is permissible. What is not an fait, however, is to short a shoe or too common a stocking. In other words it is far better to put the expense in what looks plain, but in reality is the perfect fit and style of the shoe and hose.—New York Evening Post.

Negro Lynched by a Mob. Carrollton, Miss., Aug. 3.—The armed mob which has been in the Tallahatchie neighborhood for two days looking for Sallie Layton and others, killed Will Price, the negro who worked for Tallahatchie and lived within 200 yards of his residence. He was found dead in the road on Duke's place in the morning some distance from any trees or anything to which to hang any one, with a rope around his neck, and mutilated by gunshot. Esquire John Irving held an inquest over the body. The verdict was, "Came to his death by the hands of unknown persons."

For Over Fifty Years. Mrs. Winslow's SOOTHING SYRUP has been used for children while teething. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for Diarrhoea. Twenty-five cents a bottle. Sold by druggists throughout the whole world.

Half the ills that man is heir to come from indigestion. Burdock Blood Bitters strengthens and tones the stomach, makes indigestion impossible. Accidents come with distressing frequency on the farm. Cuts, bruises, stings, sprains. Dr. Thomas' Eclectic Oil relieves the pain instantly. Never safe without it.

"Little Colds." Thousands of lives sacrificed every year. Dr. Wood's Norway Pine Syrup cures little colds, cures big colds too, down to the very verge of consumption. Itching piles? Never mind! if physicians have failed to cure you. Try Doan's Ointment. No failure there. 50 cent, at any drug store.

Excursion Tickets to Race Meet at Freeport, Ill.

LATEST FOREIGN NEWS.

Prisoners Reach Bermuda.

Hamilton, Bermuda, Aug. 5.—The British hired transport Manila from Port Natal and Table Bay, which has arrived here with Boer prisoners of war, landed 600 of the prisoners on Tucker's island. Two deaths from pneumonia occurred on the voyage. Six officers and 140 men of the Royal Warwickshire regiment came on the Manila to act as guards on the guard-ship Hotspur, stationed here. The United States cruiser Montgomery called for orders and sailed again.

Many Are Slain by Boers.

London, Aug. 5.—A letter from a soldier in South Africa, dated Nylstroom, Transvaal colony, July 6, says the Boers wrecked a train near Naboomspruit July 4. One hundred and fifty Boers attacked the train guard and twenty-eight Gordon Highlanders were killed, eighteen wounded and ten captured. The conductor, engineer and fireman of the train were subsequently shot.

Liner Breaks Her Screw Blades.

London, Aug. 5.—The North German Lloyd steamer Grosser Kurfurst, from New York July 25 for Southampton and Bremen, passed the Lizard at 3 o'clock this morning and signaled that two of her port screw blades were broken.

Americans Coming Home.

London, Aug. 5.—Senator Depew will return to America in ten days and Assistant Attorney-General Beck will sail next Saturday for New York.

Ends Campaign Against Indians.

City of Mexico, Aug. 5.—On the last day of July the government formally declared the campaign against the Yaqui Indians closed.

Awarded Gold Medal.

Paris, Aug. 5.—The Aero Club has awarded its first gold medal to M. Santos-Dumont, the inventor of the dirigible balloon.

New Rector Is Chosen.

Berlin, Aug. 5.—Professor Reinhard Kekule von Stradonitz has been elected rector of the Berlin University.

STRIKE RIOT IN MILLS.

Steelworkers, Angered by the Strike-Breakers' Success, Pen Them In. Wellsville, O., Aug. 5.—The long-fearing trouble here came early in the day. Many of the strike-breakers were kept away from the mill by the army of pickets that surrounded their boarding houses.

During the clash stones were thrown and several shots were fired.

The cause of the outbreak here was the anger of the strikers of being caught napping yesterday when one crew of nine strike breakers from Scottdale was slipped into the plant. This gave Manager Brookman a sufficient force to operate six mills, just double the number that he had going a week ago. The strikers were much excited when they discovered that they had been duped. Their leaders were busy at Pittsburgh and the men had to act without instructions.

It was predicted that there would be trouble before morning but the cry has been raised so often since the strike began that little attention was paid to it outside of the ranks of the strikers, who, when they started out early this morning to prevent the non-union men from going to work, had the town to themselves. Their first move was to surround the boarding houses of the strike breakers.

When the nonunion men came out and were held they retaliated by throwing stones at the Amalgamated men, who closed on them.

Then, almost point blank, the men with the dinner buckets fired three shots into the pickets. This caused the latter to scatter, but the sound of firing at the gate brought many other strikers to the scene.

At 3:15 a. m., by surrounding the boarding house in which the shots were fired, the pickets, who were all concentrated at that point for a time, captured three strike breakers, including "Bumme" King, who is notorious here. They were held up against the fence of the mill and moral suasion tried, but it failed. They swore they would go to the plant.

Meantime two other strike breakers in Phillips' boarding house were held up by another picket. The strike breakers were thoroughly scared. Men coming to work at the main gate were held up on the railroad track and argued with, but no violence was offered.

When the second whistle blew there were many of the strike breakers who could not reach the mill. The pickets except for a few clubs, seemed to be unarmed and none of the strikers were hit by the shots fired by the non-union men.

At the boarding houses the landladies drew revolvers on the pickets and made them fall back. Mrs. Phillips upbraided the strikers and made her husband return to the house. She told the pickets he should go to work in the mill in spite of them.

VIRTUES OF THE LEMON.

Its Anti-Scorbutic and Anti-Rheumatic Properties.

A correspondent inquires whether lemons possess the virtues so frequently ascribed to them. What science has to say in reply is that the fruit is anti-scorbutic in nature, and that its employment as a preventative of scurvy is illustrated in the familiar use of lime juice. The lemon contains various acids, citric acid among them, with citrate of potash, and these acids oxidize in the blood into carbonate of potash and carbonic acid. As scurvy is believed to be due to a lack of potash

salts in the blood we see how substances like lemons, potatoes and fresh vegetables generally, act as preventives of the ailment. Also in rheumatism, in which it is desirable to maintain the alkaline character of the blood, lemons are of service. Beyond this we do not think any one can vaunt the properties of the fruit. A healthy person has no need of lemons than of, say, tea, for his ordinary food will supply him with all that is necessary for the maintenance of a sound body. People who talk about lemons as "good for the liver" and so forth, found their belief rather on faith than on knowledge.—London Chronicle.

Texas Bank Is in Trouble.

Austin, Tex., Aug. 5.—Federal Bank Inspector J. M. Logan has closed the First National bank of this city and posted a notice on its doors that it would not open to business pending the arrival of the chief inspector. Alleged excessive loans are said to have caused the inspector to take this action. The state of Texas is said to have some \$75,000 on deposit in the First National, though the exact amount is unknown. Total deposits are reported to be over \$200,000. No official statement will be issued pending the arrival of the chief inspector.

Plan for Big Sugar Works.

Los Angeles, Cal., Aug. 5.—The Los Angeles Sugar Company was formed, with a paid up capital of \$3,000,000. The company will establish works on 6,000 acres of land in Antelope valley, with a capacity of fifty tons daily. An English syndicate has subscribed for the bonds. The proceeds will be used in erecting buildings. William Elliott Smith, president of the Alton Glass works, is president; T. B. Cole of Chester, Ill., general manager, and E. C. Bates of Chicago secretary. Other Chicago people are directors.

Dash Over a Precipice.

Morgantown, W. Va., Aug. 5.—Mary Bayles, aged eight years, and Lloyd Shoemaker, aged five, were sitting on a farm wagon near here. One of the children released the wagon brake and it started with terrific speed down the barn yard hill and plunged over a precipice to the river, almost 200 yards below. Both children were fatally injured, their bodies being terribly mangled.

Slaves Die by Lightning.

Norfolk, Va., Aug. 5.—Rosalee, eighteen, and Susie, twelve, daughters of Lorenzo Dowell, a well-to-do Albemarle county farmer, were killed by lightning yesterday while standing under a tree in their father's farm yard. The bolt was conducted to the tree under which they stood by a metal clothes line.

Bentlers Shot Beside Graves.

Guthrie, O. T., Aug. 5.—Daniel W. Martin of this city was a member of the vigilance committee that pursued, overtook and executed the Bender family in the Gerdigris river country. Mr. Martin says the Benders were shot beside graves that had been dug for them.

Celebrate 100th Birthday.

Riverside, R. I., Aug. 5.—Mrs. Catherine Gaynor of Bristol, R. I., celebrated the one hundredth anniversary of her birth yesterday. She was born in Ireland in 1801 and is in a remarkable state of preservation, being about 100 every pleasant day.

Collapse.

Caused by overwork? No, caused by undernourishment. Work rarely causes collapse. It is worry—the outcome of a low condition of the nervous system and inadequate nutrition which generally causes collapse. The collapse seems sudden, but in reality it is a slow process. The stomach and organs of digestion and nutrition are diseased, the nourishment in the food eaten is only partially extracted and imperfectly assimilated. The blood becomes impure; the very fount of life is poisoned; and some day all the faculties and functions go on a strike. That's collapse. Dr. Fiere's Golden Medical Discovery cures diseases of the organs of digestion and nutrition, purifies the blood and builds up the weak body with sound healthy flesh.

"I was cured of a very bad case of indigestion, associated with torpid liver, by the use of Dr. Fiere's Golden Medical Discovery," writes Mr. G. B. Bird, of Byrnside, Putnam Co., W. Va. "Before I began the use of 'Golden Medical Discovery' I had no appetite; could not sleep, nor work but very little; bowels constipated, and life was a misery to me. After taking four bottles I felt so well that I went to work, but soon got worse, so I used it about eight weeks longer, when I was permanently cured."

Dr. Fiere's Medical Adviser is sent free on receipt of stamps to pay cost of mailing only. Send 21 one-cent stamps for paper covered book, or 31 stamps for cloth, to Dr. R. V. Pierce, Buffalo, N. Y.

Have You Headache From Eye Strain?

Is it difficult to read by artificial light? Is your vision gradually failing you? If so go to Dr. L. P. Merar, Oculist, Suite 424-426 Hayes Block, Janesville. All errors of refraction and loss of accommodation of the eyes corrected. Eye glasses and spectacles fitted by the most scientific methods. Special attention given to children's eyes.

DR. L. P. MERAR, Oculist. Suite 424-426 Hayes Block, Janesville. Office Hours: 9 to 12 a. m., 2 to 5 and 7 to 9 p. m. Open every Saturday and Sunday.

The Skin AN INDEX TO THE BLOOD

Millions of little glands or tubes connect the blood with the skin, and through these small drain pipes perspiration passes out, carrying with it the impurities that are thrown off by the blood. Should the pores of the skin be entirely closed for even a brief space of time, and the poisonous matter forced back into the circulation, instant death would result. In addition to the sweat glands, the skin is provided with certain others which pour out upon it an oily substance, keeping the skin pliable and soft and protecting it from heat and cold. The blood and skin are so closely related that whatever affects one seriously interferes with the functions of the other. Not only health, but life itself, depends upon perfect harmony between the blood and skin. When, therefore, the blood becomes poisoned from any cause, it quickly manifests itself upon the skin in the form of sores and ulcers, pimples and various eruptive diseases. By the character of the sore we are enabled to determine the nature of the poison or humor in the blood, as every disease originating in the blood has its own peculiar sore or pimple. The skin is not only affected by the poisons generated in the system, but poisons from without enter through the open glands or pores and quickly infect the blood. Mercury rubbed upon the skin will produce Rheumatism, and Poison Oak and Ivy and other wild plants gain easy access to the blood through the skin. As so-called skin diseases originate in the blood, the application of powders, soaps and washes can do no permanent good, but often do immense damage by closing up the outlet to these little tubes and interfering with the natural action of the skin. The treatment must begin with the blood, and the acid or other poisons antidoted or neutralized. S. S. S. does this and purifies the circulation, builds up the blood and flushes the little glands or pores with pure, new blood, and restores healthy action to the skin. The use of cosmetics never yet brought health and beauty to a rough, red, pimply skin or sallow complexion. What is needed is rich, pure blood, such as S. S. S. makes. It not only relieves you of all disfiguring blackheads, blotches and irritating, itching eruptions, but improves your general health. S. S. S. contains no mercury, potash, arsenic or other mineral, but is a purely vegetable remedy and the safest and best in all blood and skin troubles. Write our physicians for advice or information; they have made a study of blood and skin diseases, and you can have the best medical advice without cost. Book on Blood and Skin Diseases free.

Pure Blood—Soft, Healthy Skin—of powders, soaps and washes can do no permanent good, but often do immense damage by closing up the outlet to these little tubes and interfering with the natural action of the skin. The treatment must begin with the blood, and the acid or other poisons antidoted or neutralized. S. S. S. does this and purifies the circulation, builds up the blood and flushes the little glands or pores with pure, new blood, and restores healthy action to the skin. The use of cosmetics never yet brought health and beauty to a rough, red, pimply skin or sallow complexion. What is needed is rich, pure blood, such as S. S. S. makes. The PLEASURES
OF DRIVING

Are only completely realized when you have a stylish turnout. It is the carriage that gives your turnout a stylish appearance. A quite ordinary horse makes a showy appearance when dressed in a nice harness and hitched to a nobby carriage, such as we have on our repository floor. We have the harness, too. Come and look at them. The prices won't frighten you

... FOR ...

\$60

At \$60 we can sell you an up-to-date vehicle that others ask much more for and still consider that they are selling at low figures. We don't make carriage selling our only feature. You are most welcome to call.

LAMB & BARLASS,
Court Street Bridge, Janesville.

DISTANT RELATIONS.

BY HARRY PAINE.

George Goad and Arthur Sennet occupied the third of the mourning coaches in the procession. They had worn quite the right expression as they stepped down from the house to the coach. Not one of the little crowd that had gathered to see the procession start could have found any fault with it. Arthur wore his handkerchief so that the black border on it peeped out of his pocket and indicated how his bereavement had gone all through him and left its mark on the smallest detail. But when they were once inside the coach and leaning back on the cushions that expression dropped off. It was a very comfortable coach, and George Goad looked perilously near to being contented. Even Arthur's querulous face wore an appearance of partial and rancid satisfaction. For a minute they nursed their solemn thoughts in silence, but they were the kind of men that had got to talk; Arthur looked out of the corner of his eye at George. It was for the elder man to start and to justify it.

"And George began with a justification that he had used before on similar occasions. 'After all,' he said, 'we may have our feelings, but we couldn't have wished it otherwise. It was a merciful deliverance.'

"I can't help but agree with you," said Arthur, as though he rather regretted this want of an independent judgment in himself. "She was a great sufferer. When the news was brought to me, I had a feeling that was almost like relief, if I may use the word."

"And after all we're nothing more than distant relations. It can't be the same to us that it should be (and I hope is) to them that were nearer and are now in the coaches in front."

"That is so," said Arthur. "As to the relationship, I've tried to work it out, and it fogs me. I was thinking about it only last night. It's a kind of cousin, and I should say it was a third cousin. But I wouldn't speak for certain."

"Ah," said George indulgently, "we country chaps are no good at problems! Now, your profession—clerk to a solicitor—I'll wager that sharpens the wits."

"Do you know what's the principal use of a solicitor's clerk?" asked Arthur bitterly.

"Well, and what might that be?"

"To stop the solicitor from making a fool of himself."

"Oh, that's a good one! That's as good a one as ever I heard. I'll remember that. 'I'll'—He pulled himself up with a short, sharp jerk. In another minute he would have been in a guffaw. He went on rapidly, clearing the smile from his face as he spoke: "She was a good woman. Yes, and a thoughtful woman too. I don't suppose the expense would have kept you away today or me either. Still, that \$5 pound note apiece for the purpose was thoughtful."

"That is how I took it," said Arthur. "Of course, your railway fare's more than mine. Still \$5—"

"Of course. There's a margin, and I haven't the least doubt she meant there to be a margin. I'll give you another point. Did you notice that sherry before we started?"

Arthur confessed that he had not noticed it particularly.

"Well, I did. And it happens I can tell you something about that sherry. If she ever took a glass of wine, it was sherry. And, what's more, she kept two sorts of it. There was one at 18 and one at 30. I know that for a fact, because I know the man she dealt with. Now, the 18 I've had at the house before; nice enough, you know, but with a sort of sting in it. The one we had just now was not the 18, but the 30 and quite a different thing."

"I rarely touch anything," said Arthur, with melancholy. "Can't—it's liver with me."

"What you want is a country life and good plain food. I'm never in a town but I notice the difference there. You can't get a good stew in a town. That's a country dish for country cooks. I don't say I could fancy it on a hot day like this, but in the winter—Well, you must come down one day and see for yourself what we can do. Give me three helpings of a good stew, a little bit of cheese and a pint or so of old ale, and I don't mind."

But it never transpired what George Goad, under those delicious circumstances, did not mind, because at this moment the coach stopped. They were already at the cemetery. Without delay George and Arthur assumed the necessary expression. The coach moved on a little farther and stopped again close to the cemetery chapel. There was a moment's delay, and then a man in black opened the door, and the distant relations got out and took their places in the partially formed procession. At the door of the chapel they could see the curate waiting. There came a burst of laughter from children in the distance. Then as they entered the chapel the curate's voice rose clear and vibrating in words of singular beauty and solemnity. George and Arthur looked all right. Black and white.

Ambition Versus Contentment.
The difference between making a living and making money is illustrated in a conversation that took place 30 years ago between a man who went west and made a fortune and a man who remained on a farm in New England and did not. To sum up, the western man said to the New Englander: "You needn't tell me how it is. I know all about it. If you had a farm given to you at the beginning and you have lived on it for 40 years, you've come out within 50 cents of the amount of capital you began with."—Christian Register.

THE AMERICAN DAIRY.

Features of the Exhibit at the Exposition at Buffalo

In the dairy building of the Pan-American Exposition everything is practical. Immediately in front of the main entrance the state of Minnesota has arranged an exhibit in a big refrigerator measuring thirteen by twenty feet and reaching to the ceiling. The sides are of heavy plate glass, inside of which is maintained a temperature of fifty degrees F. by a special refrigerating plant of modern construction, embodying all that is new and valuable in the science of refrigeration. In this cold box has been arranged a model of the Minnesota state capitol built to an accurate scale, the model being by actual measurement twelve and one-half feet high. The material of which it is constructed is the finest creamery butter—a veritable butter castle—that would very soon dissolve itself into an immense grease spot only for the restraining influence of the before mentioned refrigerating machinery.

Other large refrigerators extend down through the center of the building almost to the extreme end in which different temperatures are maintained suitable to the curing or preservation of the different dairy products therein contained.

In one of these compartments the new process of curing cheese at a temperature of sixty degrees is being carefully demonstrated to all who care to investigate.

Another exhibit is or should be interesting to every one, as it deals directly with the proper preparation of our civic milk supply. The process commences with instructions to the dairymen in the manner of keeping his stables, cows, help and all paraphernalia in connection therewith in a cleanly manner, with further instructions to strain the milk immediately and to take proper care of it.

When it is received at the milk station it is turned into a receptacle where it is heated to a temperature of one hundred and fifty degrees; from here it is pumped to the cooler, a corrugated contrivance filled with ice water over which the milk flows in a thin sheet or layer. By once passing over this cooler the temperature is reduced from one hundred and fifty to fifty degrees and carried at once by a spout to a bottling machine where it is bottled at the rate of several bottles per second.

By scientific investigation it has been determined that harmful bacteria in our ordinary milk supply in vast numbers; by careful experimenting it has also been determined that the more harmful bacteria are destroyed or rendered harmless by heating the milk to a temperature of one hundred and fifty degrees. If it is heated above this point the milk is given a boiled flavor and to a certain extent its digestibility is destroyed.

Mexico Supplies Us with Bristles.
For the bristles in the paint and whitewash brushes, America is indebted to the patient labor of women and children in their homes in Mexico. The material of which these brushes are largely made is the ixtle, istle, or ampicco fiber, from the plant of that name. America imports more than 1,000 tons of ixtle fiber a year, a third of the entire output of Mexico, and we pay to our southern neighbor \$266,000 for it.

Ice on Bottom of Sea.
In the Baltic Sea and in many northern regions the lower water is so much colder than the water at the surface that ice forms at the bottom while the surface waters seem warm. This phenomenon puzzled scientists for many years. The ice formed in small cakes or flakes and rises to the top, where it melts if the weather is warm or the cake freezes into a solid mass if the weather is cold. Scientists have discovered that the phenomenon is due to an undercurrent of very low temperature. Boatmen, when they see the ice cakes rising to the surface, hurriedly take to the shore if frigid weather exists, for otherwise their boats would be rapidly ice bound, and they would be unable to escape.

Cheap Excursions Colorado

Inquire of local agent about cheap excursion rates to Colorado over the Santa Fe—round trip from Chicago, \$25; from St. Louis, \$21.

Costs a little more than at home, and you can keep cool.

The Rockies of Colorado are just the place for a delightful summer outing.

Observation Pullmans on fast trains—Harvey meals—One hundred miles' view of mountains between Pueblo and Denver.

Ask for copy of "A Colorado Summer."

Broken Size Sale All This Week

In every line,—oxfords and high shoes, ladies' or gents', black and colors, in fact every pair in our vast stock is thrown in and reduced to bargain table figures, to make ready for our Fall Lines. We are cutting prices that make buying easy, for those who want to buy now.

Our Reputation for the handling of Only Good Shoes is established.

And we assure you a visit to our store this week will save you money.

Women's from \$1 25 up.
Misses' 90c and up.

Men's from \$1.25 up.
Boys' \$1.20 and up.

SPENCER,

8 East Milwaukee St.

On the Bridge.

Discard That Off Colored Straw Hat.

AT THIS TIME OF THE year your straw hat that you purchased early in the season begins to look rather shabby and off colored. The cruel sun the past month has raised havoc with the straw. But then we took this fact into consideration some time ago and the result is the installation of another new stock—the second straw hat shipment this summer. At the Ziegler store you have the same low prices besides the advantage of selecting from the largest stock in southern Wisconsin
